

A letter to Year Six

Dear year six students,

My name is Cara and I am in year seven at Trinity Academy. I am going to tell you a bit about life at Trinity. I can't include everything though, because there are so many wonderful opportunities waiting for you. I wouldn't want to ruin all the surprises.

I will begin by explaining how I felt about coming to secondary school from primary. I was a little apprehensive about the various challenges that I would face: how would I be able to find myself friends when I am surrounded by so many people? Would I be able to find my way around? How would I cope with so many more children in my year group? Would I like my new subjects? Would they be very difficult? Would I get lots of homework? Would I be Ok walking to school each day? I knew it wouldn't be a smooth ride. Imagine getting onto a rollercoaster ride. It's a bit like that, lots of highs and lows, but once you are at the end, you want to go back again. Treasure your school years, do the best you can. You won't be getting them back.

The Teachers at Trinity are really kind and helpful and if I ever feel that I am lost, all I have to do is ask a teacher for help and I am soon in my classroom. It turns out having more teachers helps you get to know people and the teachers always make me feel safe. More children in my year group can be a bit overwhelming at times but it is like a huge party that everyone is invited to. There aren't that many new subjects but one of them (food tech) is already in my top three subjects. The homework isn't too much and it can be fun. I am lucky to live close to school so I get to walk in each day with some of my friends. There are also buses that take you right to the school door and a bike store if you wanted to cycle. I would recommend getting to school at least 5 minutes early so that you aren't having to rush or be late.

My experience at Trinity so far has been enlightening and I'm so interested in what will happen next? I'm really excited for my future and what it will hold. If you believe in yourself you will be able to make anything happen! For example e. I always wanted to play tennis and now I go to tennis every week. The best way to predict your future is to create it. Hope to see you soon.

Best wishes Cara

Sincerely,

Cara
