

Moving Maths!

Turn your walks into a maths lesson with these fun challenges...

How long does your walk take? Take a stopwatch with you and time your daily walk.

- Which route is the fastest?
- Do you travel faster when you go uphill or downhill?
- For a big challenge, can you work out your average speed? (ask someone to help you with this)

Can you find 10 different leaves?

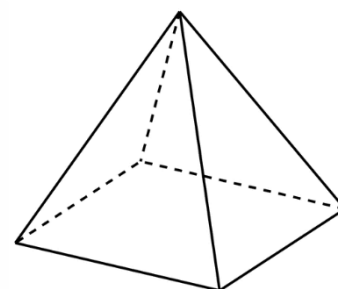

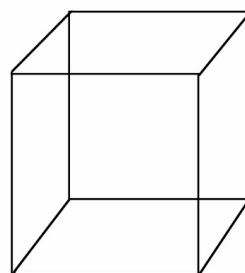

How many different colours and shapes are there?

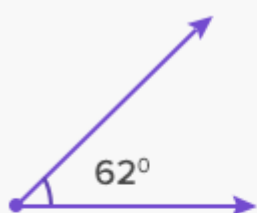

Can you make a circle out of stones?

Can you make these 3D shapes out of twigs?

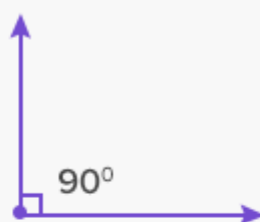

Do you know what each shape is called?

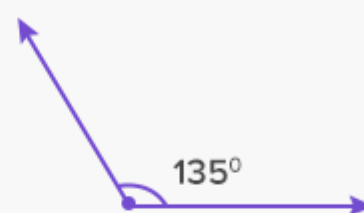

Can you find a right angle, an obtuse angle and an acute angle?

Acute angle

Right angle

Obtuse angle
