

Dear Parents and Carers

27 September 2021

Re: Space Week

Brooke Primary Academy will be celebrating World Space Week starting Monday 4th October. Throughout this week, the children will learn all about space alongside taking part in many other scientific activities.

Film Night

As the part of the event, we are inviting children to come for a special film night after school to watch a space related film. Children will enjoy popcorn and a drink whilst watching the movie.

This will take place on Wednesday 6th October 2021 straight after school and finish at 5.15pm. This event will cost £2. Payments must be made via Parentpay to secure your child's place. Please specify in the notes section of Parentpay which film you would like your child to watch.

The children in school will have a choice of the following films depending on their year groups;

All Children – Wall-E

KS2 children – Star Wars the Phantom Menace

If you have any questions please don't hesitate to come and see me or your child's class teacher who will pass any questions onto myself.

Kind regards,

Mr Moore
Science Lead
Brooke Primary Academy
