

## Healthier Together

Dear Parents and Carers,

The Healthier Together website is a new NHS resource which support families, pregnant women, and young people in leading a healthy life. The advice on the website has been created by regional health professionals and relevant partners which means that any household across South Yorkshire and Bassetlaw will be able to use this website and feel comfortable understanding the content.

You can use the QR code on this letter to access the Healthier Together website.

Thank you for your continued support,

Mrs Brown

(Healthy Learning, Healthy Lives Lead)
