

Dear Parent / Carer

**RE: We Can Grow Project - Y4CJO**

As you are aware, our school is very lucky to have fantastic outdoor space, including an orchard and its own Garden of wellbeing and Inspiration.

After the Easter break, in collaboration with Mr England and We Can Grow, your child will be taking part in a fun educational project [Vegetable Growing Programs for Children | Education \(wecangrow.co.uk\)](http://wecangrow.co.uk)

The project will introduce the children to the wonders of growing vegetables.

We Can Grow will come in to school every **Tuesday** to work with the children and Mr England.

To take part, your child should wear his/her normal uniform. However, please send your child with an old pair of shoes, which will remain in school and be changed into for the session. As the weather gets warmer, if any further clothing is required, we will let you know.

Y4 children not taking part in the project this academic year, will be given the opportunity in Y5.

Thank you for your support.

Kind regards

Emma Levers

Head of School
