Dear Parents and Carers,

We are sending home your child's log-in details for both SATs Companion and Reading Plus, two sites that school has bought in to assist children with their Year 6 work and revision towards their SATs tests.

Reading Plus allows the children to practise their reading and comprehension. It adjusts the level to match your child's level and encourages progress, altering the difficulty as your child progresses.

SATs Companion allows the children to learn, test themselves and progress across Reading, Grammar, Punctuation and Spelling (GPS), and Mathematics.

We ask that you encourage your child to access these sites at home/ give them some allotted time to aid their progress and confidence. They can also access BBC KS2 Bitesize, English and Mathematics, which has useful videos, explanations, games and mini tests.

For those interested, there are many Y6 SATs revision guides (e.g. CGP and Letts) available online. Many children have found these useful in previous years as they can take their time reading/practising SATs topics they find challenging.

If you have any questions, please feel to contact me through school.

Yours faithfully,

Mr. Thomas
(Year 6 teacher)
